Techmin Project Report Generator - Release Notes

Version 1.0.0 - 2 November 2026 (under testing)

First release.

New

- Prospective project report for new or growing businesses, built in 11 guided steps with automatic saving.
- Project cost, means of finance, revenue, expenses and manpower, working capital, assumptions, narrative and review.
- Term loans with EMI, equal principal or custom principal, monthly or quarterly, with a moratorium option.
- Projected profit and loss, balance sheet, cash flow, depreciation, DSCR, ratios, break-even and sensitivity.
- Narrative text made from your inputs and business category. It states only what you entered.
- **Validate complete report**: checks mandatory data, arithmetic, financial logic, assumptions and narrative, with a Go to button for each problem. Printing is blocked while errors remain.
- Print-ready A4 report with page numbers, saved as PDF from the browser.
- Save and restore: JSON and TXT with a corruption check; import never overwrites unless you ask.
- Sign-in with an emailed 6-digit code, no password. Reports stay in your browser.
- Admin panel for registrations and email quota.
- Feedback form and the Techmin Wealth Partners logo.

Please note

- Under testing. Errors may occur.
- Sign-in needs the administrator to connect the sign-in service. Until then the tool shows "Sign-in not set up".

- Scheme rules are configurable suggestions and are not verified. Confirm with the lender.
- Annual projections only. No GST or TDS modelling and no multi-currency.
- Reports are estimates. They are not a bank-approved format and do not promise sanction.
- Table of contents has no page numbers. Safari and Firefox printing, phones and screen readers are not yet verified.
- Reports are stored only in your browser. Download backups.
